Desert Golfing

Hey, duder. Oh, I see you know the rules. Each stroke across the sands counts one stroke. And the game ends when you are on the green. The score is the number of strokes it takes you to get to the green. In the real world a golfer might have to go cross country to the green. If there is a wall on the way to the green, your shot is called out. The ball might then go into the water. This is how you are reminded to play with a real gun! There are outcroppings all over the map. Some are not very friendly to you. Are you sure you want to continue? This will be the last hole on the course. The course might not have been laid out that way on purpose. You are always given a few helping hints by the ten-dimensional dog who guards the chateau in the sky and gives the vases and chairs around the hole hints too. Have you met the last vase you are meant to come to? And where will it take you? The real world is a very different place from the one in here. Have you met the last vase you are meant to come to? And where will it take you? The real world is a very different place from the one in here. Have you met the last vase you are meant to come to? And where will it take you? The real world is a very different place from the one in here. Have you met the last vase you are meant to come to? And where will it take you? What's new:

with Amelia Iversen is a wonderful member of The Rantings. I've been talking with her recently about her new book, which has just been published. Amelia has always been an excellent writer of fiction and has a number of publications, including *Blackwater Jumper* (which is now being republished by Ellora's Cave). You can read all her work in her impressive Web Site. Here's a flash from *Left Behind* and a very incomplete one because the story's still being revised. Then we'll have amble chat about that. First, the flash, followed by a bit more in the final post on August 15th. "Penelope," I said and she jumped. She had thought of Nick as her pseudo-husband, but the tongue that had called him by that name didn't always re-educate it selves. "I know. All mistakes! And far be it from me to take his okay for my womanish actions. It's something of a habit of mine. This indeed has been a practice of Nick's in his days of college and college. His mother always used to say, 'Oh, please Penelope, please do NOT take the man's part.' She reprimanded him because he always tried to take the other side, and to me it made perfect sense. Everyone is entitled to their perspective. I agree wholeheartedly." "Truth. I think I am being pushed into it, and it is difficult for me to deny a man's all too apparent rights. I didn't mean a slight to your efforts, Dear. It's very impressive. Had I only known!" "While Nick has bad habits, I have learned to bargain for a better one. I assure you, I guess, that I am trying very hard to see that he will be happy. Nicholas has abandoned all hope of ever having a blossoming marriage, and it is terribly difficult to face his life without me by his side." "Would you like some tea, Amelia?" "Oh, no. I must go. But I must leave this in your hands. The publisher is sending my book along for the review. And I shall return again and again, until Nicholas's life returns to him." And she left me

Free Download Desert Golfing PC/Windows
